Report by the Chairman of the Rules Committee.**Barrington Trophy Semi-Final Olton 5 v Walsall Kipping played at Olton 30/01/07**

During this match, the Walsall Kipping player on board 3, A. Perry, left the playing area to use his mobile phone as he was expecting a text message. Mr. Perry then returned to the board believing the phone to be switched off, however, it emitted a single bleep and the Olton player B. Garner claimed the game. Although it was admitted that the phone had rung, Mr. Perry did not agree that he had lost the game and it was adjourned as a precaution.

Walsall Kipping appealed against the loss of the game citing the fact that a single ring would be no more disturbing than when, perhaps, someone leaves the board. They also quoted FIDE article 12.2(b) which among other things states that if a mobile phone rings in the playing area that player shall lose the game. The Arbiter will determine the score of the opponent. They requested that the game should be played on.

In my capacity as Chairman of the Rules Committee under Rule 19.4 I am required to try and settle disputes amicably. In this particular case the decision was clear cut since under Rule 8.9 which cites Article 12.2(b) mobile phones are permitted in the playing area providing they are switched off. Also, as the opponent in this game was not obviously lost the score should be Garner 1 Perry 0. Walsall Kipping accepted both these decisions.

I would not normally report decisions that are made outside of the Rules Committee, however, in this case, I thought that it was an important point to make that mobile phones must be turned off in the playing area. The ringing aspect merely betrays this fact.

Mike Biddle

Chairman
